Performance and dedication during my semester of online classes.

PROFESSIONAL SUMMARY

Proactive MERN Stack Developer with expertise in translating project requirements into scalable web applications. Collaborative team player with strong problem-solving abilities and a commitment to staying updated with emerging technologies for enhancing development processes.

PROJECTS

1. Fiverr | ⊕ | ⊕
JavaScript | React | Node.js | Express.js | MongoDB | Tailwind Css | Chakra UI | Git

- Full-stack application built to mimic functionalities of Fiverr
- Developed over 5 days as an individual effort
- Key features include authentication, dynamic content creation, and responsive design

2. Sephora | ⊕ | ⊕
JavaScript | React | Git | Responsive Web Design | Tailwind Css | Chakra UI | Local Storage | Css

- Developed a clone of sephora.com, an online shopping application for beauty products
- Implemented user login interface and dropdown menu for enhanced user convenience
- Implemented features such as add to cart and remove from cart functionality

3. Boat Lifestyle | ⊕ | ⊕
HTML5 | CSS3 | JavaScript | Git | Responsive Web Design | LocalStorage

- Developed a clone of Boat Lifestyle.com, an e-commerce platform for audio systems, smartwatches, and earbuds.
- Implemented user login interface, responsiveness, add-to-cart functionality, and remove-cart functionality.
- Utilized modern web technologies and responsive design techniques to create user-friendly.

4. Pluralsight | ⊕ | ⊕
HTML5 | CSS3 | JavaScript | Git | LocalStorage

- Designed and implemented a user login interface, enhancing security and user authentication.
- Enhanced user experience and interactivity by implementing hover effects.
- Designed a clean and consistent layout across pages, ensuring a structured application.
